Women inspiring action,
transforming lives 

Hello and welcome to the presentations of this years Best Practice Awards – a celebration of some of the work carried out over the last year.

The awards have been made using the 5Ps of People, Prosperity, Planet, Peace and Partnership, applying the criteria developed over several years and sent out to the Federation Programme Action Committee in June.

The winners were notified of their success in August and invited to present their project using the headings of What, Why, How and Outcome so that other clubs can learn from their experience. This is the same format used in Bournemouth last year and which was welcomed by delegates.

We are presenting the winners in the order on this slide, rather than strictly numerically, because it is becoming clearer that without Partnerships and Peace, Justice and Strong Communities it will be difficult if not impossible to achieve success with the other Sustainable Development Goals. The UN is advocating Partnerships for SDGs and defines them as “voluntary and collaborative relationships between various parties, both public and non-public, in which all participants agree to work together to achieve a common purpose or undertake a specific task and, as mutually agreed, to share risks and responsibilities, resources and benefits.”

All these projects worked with partners so, those dreaded Programme Focus Report Forms again, please do remember to tick SDG 17 when relevant as well as the others.

We will be publishing all presentations as .pdf documents with a summary report after conference.

Awarding certificates cannot be done in person this year but President Isobel will say a few words of congratulation at the end of all presentations which will run sequentially, and certificates will be emailed to clubs following conference.

Together we can achieve greater success than working alone. Congratulations to all.

SI Solihull will present their project with the others following straight away so over to you Solihull.
