

Benevolent Fund Trustee's Report 3rd May 2025

May I remind everyone that Trustees are still appealing for support from individuals and Clubs in the form of donations or fundraising activities as without this the fund may eventually have to cease its very important work. We always encourage our members to be vigilant and aware if any of their Club members are experiencing financial difficulties that the Fund could potentially offer them support for.

I would therefore be pleased to talk to Clubs about the work of the Fund – the Region's secretary has my contact details. I am also readily available to talk to any member who feels that the Fund may be able to help them.

I can assure you that all will be in the strictest confidence.

Sandra Morris

Benevolent Fund Trustee
