

'So, what on earth do I say now?'

Evaluation of Workshop held Saturday 18th January 2020

Outcomes	Not changed	Improved	Greatly improved
My understanding of the implications for someone suffering from domestic abuse		9	12
My confidence in handling a situation if a personal disclosure is made		4	17
My understanding of what to do in a safe and appropriate way		4	17

<p>What have you found most useful?</p>	<p>The words used in disclosure situations. Preparation and support that you can provide ahead of someone potentially leaving. Knowing what is appropriate to say. The helpline phone numbers The suggestions of what 'I can do' The whole session. A Soroptimist session on a relevant topic. Quiz & discussion. Rebekah's delivery of session What to say. Very good session Specific do's and don't's to say. Guidance on who the person should contact or how to help them How to re-act when told How to deal with disclosure. Stats Really useful to understand the impact on victims & children, as well as how to respond Exercise on gains/ losses. General discussion on issues Sign posting people for help. Helpline for me to phone. More confidence to identify where DV might be happening – even if the 'victim' not realise. Idea of an 'emergency bag' held by friend All of the information Covered a lot of what I know through work but a good refresher Awareness of DV situation in the UK Clarifying things that have changed since doing counselling courses etc. How to actually do something positive – without making matters worse. Who to contact. Reminder about emergency bag How to respond -many suggestions which were very helpful. Good fliers / info Practical advice of what to say/what to do / what not to say/do. Very good format -split of presentation & discussion. Practical things like offering to host an 'emergency bag' or to allow own contact details to be used if not safe for victim. Things to say on initial disclosure</p>

<p>What do you think could improve the workshop?</p>	<p>Bit longer, very interesting and powerful A bit more time Legal & Police implications. Non molestation Orders etc. CAB can help with these issues & is free advice Larger room. Spend more time on the topic. Follow up session. In a further session to practise skills in dealing with 'conversations'. More of us Can't think of anything! Very clear & informative, just the right length of time It was excellent Examples of case studies showing different types of stories None. Thought it went very well. 2 hrs was long enough for overview but a bit more time would have been good. Bigger room! Slightly longer time -perhaps an extra 30 minutes The room Thought provoking -more time to discuss, maybe longer session It's a very good introduction to this problem The space in the room. Perhaps longer to talk about issues Can't think of anything specific</p>
