

## Message for SIGBI Conference London 2023

### Soroptimists Sisters of SIGBI

It is an honour to attend the SIGBI Conference 2023, especially after my memorable time in Belfast. As President-Elect, I seek to learn more of the great work your Federation does to educate, empower and enable women and girls and the impact it has on their lives.

As my biennium theme is “Save Mother Earth, Save the Future”, I am very much aligned with your conference theme “Climate for Change” and look forward to discussions with focus on environmental issues and its impact on the planet.

My heartiest congratulations to the SIGBI clubs on the amazing achievement of your growing of trees project, where you far exceeded the target set. I plan to use this as a role model for my campaign “Plant a Tree, Grow a Forest” and “Plant a Mangrove, Save the Ecosystem”.

I wish the SIGBI Conference, London 2023 every success and look forward to a wonderful opportunity to connect and engage in meaningful conversations.

Very best wishes,

Siew Yong Gnanalingam  
President-Elect, Soroptimist International
