

## The fundraising solution other clubs recommend

### easyfundraising - simple, secure and free donations to your club

- If your club isn't signed up for the SIGBI easyfundraising scheme, then **you're missing out** on valuable FREE funds which you can use for your club projects.
- If your club is signed up but isn't really using the SIGBI easyfundraising scheme, then **you're also missing out** on valuable FREE funds which you can use for your club projects.
- But if you're actively using the SIGBI easyfundraising scheme, **you're already receiving a significant boost to your club charity funds** which you can use for *any purpose* you choose!

At the **Belfast Conference** we'll be **relaunching easyfundraising** within SIGBI (applies to UK clubs only). Representatives from easyfundraising will be on the SIGBI HQ stand on **Friday 28th October** to help you sign up, or make the most of your Club's membership of the scheme, **so don't forget to seek them out**.

In addition, we'll be sending out **updated materials** to each Club such as an FAQs & How To document, and we have arranged **2 webinars in November** for new and experienced users of easyfundraising to help your club get the most out of your online Christmas shopping!

Read about how easyfundraising works on the [SIGBI Website](#).

### Webinars

The free webinars will be on **8th and 15th November** - 8th November at 12.30 is for those who have little or no experience with easyfundraising, and 18.30 on 15th November is for those with some experience who'd like to know more.

Both sessions will be recorded and made available to those who can't attend on those dates. You can book onto the free webinars here.

**8th November at 12.30 for Unregistered Clubs/Members**
