Do you wish you had creative ways to problem solve, meet challenges and conflict in a healthy respectful way? All of us will at some point in our life face challenges. Our ability to think differently and bounce back is fundamental to developing a happy life.

Do you want to attract and retain members to our organisation through creating a happy, respectful culture?

You are invited to this interactive, energising and thought provoking experience. Come along to meet, share, network and learn together.

Some of the topics are:

**Think, Behave and Reflect for Success.** This session looks at how we can set ourselves up to be the best version of ourselves (and encourage that in others).

**The Tipping Point** is a session looking at the fascinating social dynamics that cause rapid change. This links into the new online training materials for growing our membership and getting our work known.

**Faceup Theatre** running a bespoke scenario based session - People love working with them because their training is creative, fun, practical and very memorable.
