

Soroptimist International Solihull & District

Programme Action

Increasing Members' involvement in Programme

- * Team of members instead of single Programme Action Officer to provide leadership and co-ordination
- * A PA plan based upon SIGBI guidance, President's theme, UN Days and members preferences
- * Provide Support and Assistance to new and existing groups to deliver projects and encourage measurable impact and access to relevant tools
- * To develop partnerships which promote and enable delivery of projects
- * To encourage new ideas for projects by individual members and groups

Where Next....

- * Evolution not revolution
- * Work with groups to encourage projects aligned to SIGBI, SDGs and President's theme
- * Celebrate UN Days
- * To plan what is possible in next year and 3 years

Plan on a Page
