Subject

Wales Air Ambulance Presentation.

Message

Dear Secretary,

I represent the Wales Air Ambulance Service where I am based as the development manager.

Wales Air Ambulance operate three emergency helicopter ambulances crewed by doctors, paramedics and pilots responding to serious emergencies anywhere in Wales within minutes of the call being received.

The service relies on public donations and legacies for its survival and so to sustain the momentum of the funding we operate an awareness strategy via our public relations and operations departments.

The latter includes speakers who attend functions at no charge to demonstrate how the service operates and recent developments within the organisation only made possible with the valued assistance of the public.

The talk consists of a 30 minute power point presentation followed by a ten minute question and answers session and is extremely popular with a range of social organisations.

I would like to offer my services as a speaker to clubs in Wales South Soroptimists at a time and venue convenient to you if you so wish to hear about the wonderful work carried out by our crews.
